

Does your community have an idea for a sustainable initiative that would help the local area, its people and businesses get back on their feet after the lockdown?

Tell us about it for the chance to win up to £5000 to help make it a reality.

We're looking for **innovative projects** that can really help make a difference to the **quality of life** in your area as we adjust to life with Covid19.

They can cover anything from **education and health and well-being to generating sustainable energy and combatting climate change**, as long as they are aligned with the UN Sustainable Development Goals (SDGs).

Perhaps you have a great idea for a project which would deliver **sustainable mobility** while allowing social distancing; a plan for using **digitalisation** to enable better business/life/social cohesion; or a need for **equipment or training** which could spark local entrepreneurial skills or support sustainable businesses.

APPLY BEFORE OCTOBER 11, 2020!

Apply to the '**Call for Project Proposals for Recovery for a Resilient Sustainable Future**' by completing the:

➔ [ONLINE APPLICATION FORM](#)

HOW TO APPLY

- Each community benefit fund or cooperative can enter up to three projects using the online application form.

- Up to 80% of the cost of each winning project (up to £5,000) will be financed by Falck Renewables.

- The project should:

- * be located within the geographical area covered by the wind farm community benefit fund.

- * be aligned with as many of the United Nations' Sustainable Development Goals as possible. Find out [more about the SDGs here](#).

- * have a start date of within 12 months of the application to the competition and have demonstrated results within a further 18 months.

- The applications will be judged by a panel made up of Toni Volpe, CEO, Falck Renewables SpA; Richard Dibley, Managing Director, Falck Renewables UK; Erin Hunter, Community Relations Manager, Falck Renewables UK.
