

Does your community have an idea for a sustainable initiative that would help the local area, its people and businesses get back on their feet?

Tell us about it for the chance to win up to **£5000** to help make it a reality.

We're looking for **innovative projects** that can really help make a difference to the **quality of life** in your area as we adjust to life living with Covid19.

They can cover anything from **education and health and well-being to energy sustainability and fighting climate change.**

Perhaps you have a great idea for a project which would deliver **sustainable mobility** while protecting against Covid19; a plan for using **digitalisation** to enable better business/life/social cohesion; or a need for **equipment or training** which could spark local entrepreneurial skills or support sustainable businesses.

APPLY BEFORE 11 OCTOBER, 2021!

Apply to the '**Call for Project Proposals for Building Back Stronger Communities**' by completing the:

[ONLINE APPLICATION FORM](#)

Send any supporting information to:

HOW TO APPLY

- Each community benefit fund or cooperative can enter up to three different projects using the form below.

- Up to 80% of the cost of the winning project (up to £5,000) will be covered by Falck Renewables

- The project should:

- be located within the geographical area covered by the wind farm community benefit fund
- be aligned with as many of the United Nations' Sustainable Development Goals as possible. Find out [more about the goals here](#)
- have a start date of within 12 months of the application to the competition and have demonstrated results within a further 12 months
- be supported by the local community
- be able to be evaluated to measure its success

- The applications will be judged by a panel made up of Richard Dibley, Managing Director, Falck Renewables Wind Limited, Alessandro Costa, Head of Sustainability and Erin Murchie, Community Relations Manager UK.
